### WORK HISTORY

**Frontend Developer Intern**, 06/2024 - 08/2024

**Nipralo Technologies** – Mumbai

#### Key Projects:

- **Karma – Real Estate**

Designed and developed a comprehensive portfolio website for a real estate firm using **HTML, CSS, Javascript and PHP**. Implemented dynamic property listings and contact forms, ensuring a responsive and user-friendly experience across devices. Developed an **admin dashboard** to manage property listings, inquiries, and content updates efficiently.

- **Finest – Travel and Tourism**

Contributed to the development of Finest, a travel and tourism platform. Focused on frontend development using **HTML, CSS, JavaScript, and PHP**, enhancing site responsiveness and user engagement. Built an **admin dashboard** for managing tour packages, customer inquiries, and content management.

**Web Developer Intern**, 03/2023 - 05/2023

**Chasmic Pvt. Ltd** – Mumbai, IN

- Developed and deployed multiple responsive web pages using HTML, CSS, and JavaScript, enhancing user experience by 30%.
- Optimized website performance by implementing best coding practices and modern web standards.
- Collaborated with UI/UX designers to create visually appealing interfaces.

---

## SKILLS

---

- HTML5
- JavaScript
- Bootstrap
- SQL

- Responsive design

---

## PROJECTS

---

### WorldWise -

- Implemented **map-based UI** using Leaflet.js to allow users to pin locations and manage a personal travel log.
- Integrated state management using React Hooks and Context API for efficient user interaction handling.
- Applied responsive design principles to ensure a seamless experience across desktops and mobile devices.
- Focused on performance optimization, smooth animations, and clean UI to enhance user experience.

### CineQuest -

- Real-Time Movie Search Built a React.js-based movie search app using IMDb API, allowing users to explore movies, view details, and create watchlists.
- Implemented search optimization and personalized user lists.
- Ensured efficient API calls to optimize data fetching and improve application performance.

### Fast Pizza -

- Online Pizza Ordering Developed a fully functional online pizza ordering app using React.js and Tailwind CSS for a modern, responsive UI.
- Integrated a pizza ordering API to fetch real-time menu items and dynamically display pizza options.
- Implemented state management to handle cart functionality, order customization, and real-time updates.

---
